Missouri Weekly Hay Summary 03/19/2020

The official arrival of Spring has occurred by the time many will get this report. Rains and threats of flash flooding have prevented any field work this week, as the likely hood of getting stuck is much greater than not. Despite a cold front set to arrive by weekend, some much warmer temperatures have it looking like spring. Grass is green and starting to grow and henbit is making last year's crop fields a pretty shade of purple. Cattle are starting to chase the green grass and not eating as much hay now, especially on days it happens to be warm and dry. Most farmers are continuing to feed some, however, in order to let pastures get a good jump and get ahead of grazing. The supply of hay is moderate, demand is light to moderate, and prices are steady. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or to view the directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales.

Supreme quality Alfalfa (RFV <185) 180.00-200.00
 small squares 7.00-9.00 per bale
 Premium quality Alfalfa (RFV 170-180) 160.00-180.00
 Good quality Alfalfa (RFV 150-170) 120.00-160.00
